### DETAILED ACTION

This action is responsive to applicant's amendment filed April 15, 2005. The amendment has been considered, however, it does not place the application in condition for allowance.

Claims 1-13, 20-28, 30 and 35-36 have been cancelled. Claims 14-19, 29 and 31-41 are pending in this application.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 14-19 and 29 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The limitation that the clamp jaw having a rounded from end is not supported in the specification. The specification only disclosed a blunt end. A blunt end is not necessarily rounded end.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 32 and 38 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 38 depends on a cancelled claim. Claim 32, is indefinite because the implant per se has not been positively set forth in claim 31,

therefore it is not clear whether applicant is claim a combination of the tool and implant or the tool per se.

***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 14, 15, 17, 31, 33, 37, 39, 40 and 41 are rejected under 35 U.S.C. 102(b) as being anticipated by Farris (US Patent 5,792,830). The patent to Farris discloses an implant tool having a handle 51, an elongated body 51a, a clamp 57 having a blunt end 58 and clamp operating element 160 capable of inserting an implant device.

Claims 14, 31 and 39 are rejected under 35 U.S.C. 102(b) as being anticipated by Green et al (US Patent 5,304,187). The Green patent discloses an implant tool having a handle 38, elongate body 14, clamp jaw 20 and operating element 12 on the handle linked to the clamp jaw.

***Allowable Subject Matter***

Claims 16 and 18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 34 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments, filed April 15, 2005, with respect to the rejection(s) of the claim(s) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Farris and Green et al.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
